Konbit is a five-year project funded by the United States Agency for International Development (USAID), through their Local Solutions initiative and implemented by Papyrus S.A. and its local sub awardee, Ayiti Nexus. Two international partners, Steve Kroll and Associates and Tetra Tech, provide technical and advisory services to the project. Konbit's goal is to increase the number of local development partners influencing and achieving significant and sustainable development results in Haiti, who are accountable to their constituents and who are able to effectively compete for and manage resources.
